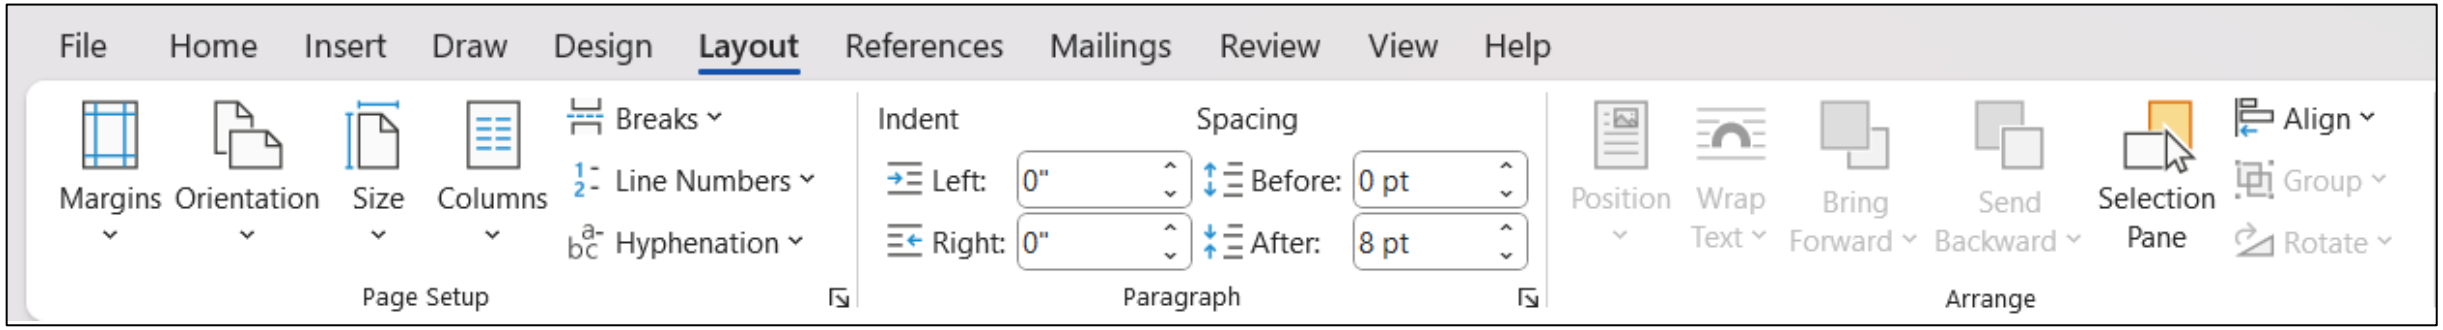
Session 3: Page Layout & Paragraph Formatting

Presented by

Ravindu Sooriyaarachchi

What is Page Layout?

- *Page layout controls how your document appears on paper.*
- *It includes:*
- *Margins*
- *Paper size*
- *Orientation (Portrait / Landscape)*



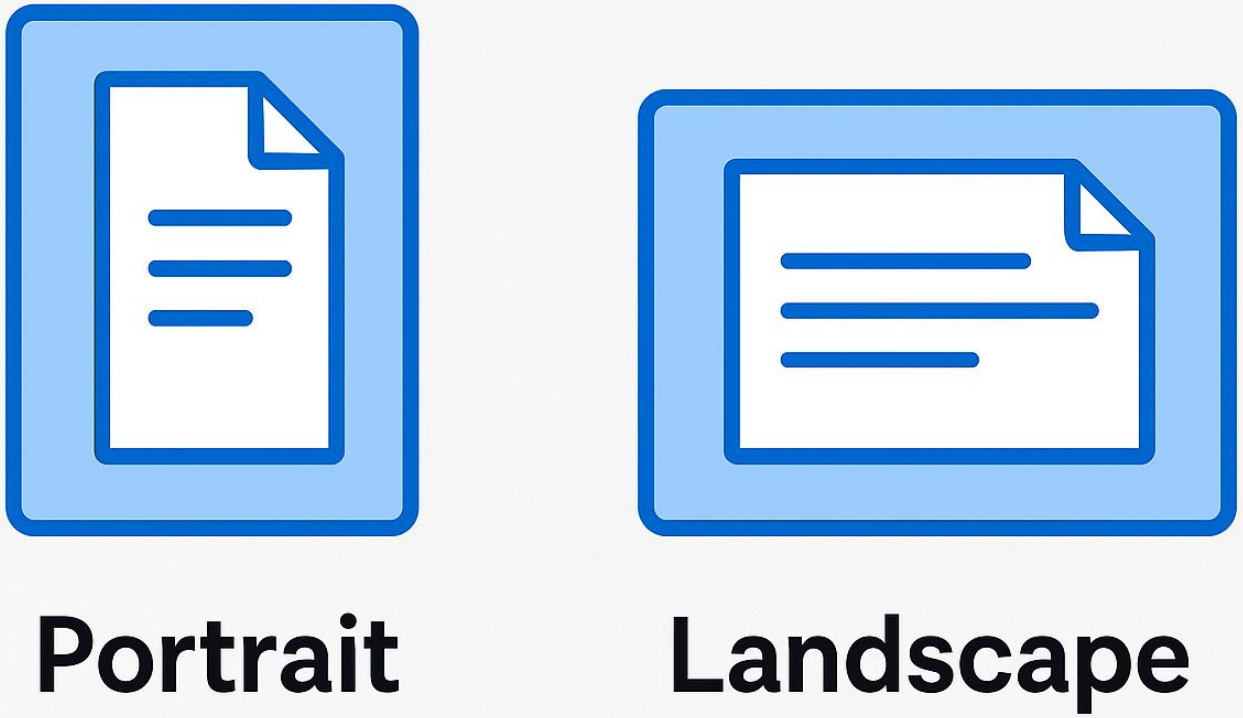
Changing Margins & Orientation

- *Go to*

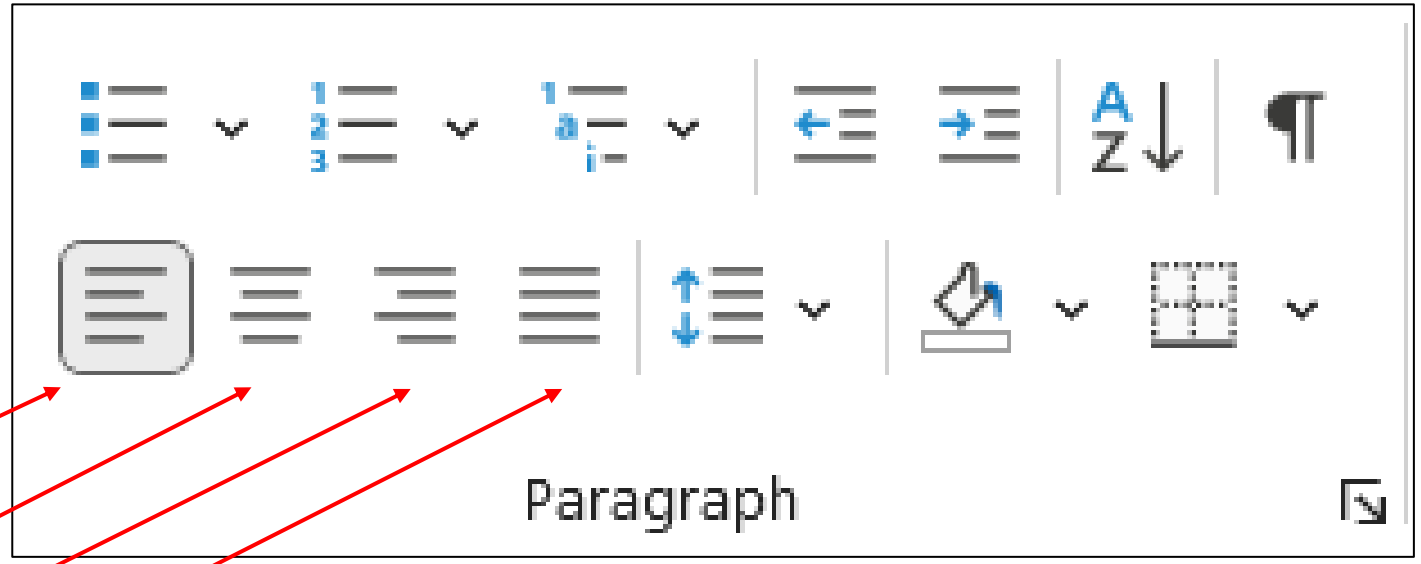
Layout tab → Margins → Choose "Normal" / "Narrow" / "Custom"

- *To rotate the page:*

Layout tab → Orientation → Portrait / Landscape



Paragraph Alignment



Align your text using these buttons on the Home tab:

- *Left Align (Ctrl + L)*
- *Center Align (Ctrl + E)*
- *Right Align (Ctrl + R)*
- *Justify (Ctrl + J)*

Line & Paragraph Spacing

Helps make your text more readable

Go to:

- *Home → Line and Paragraph Spacing (1.0, 1.5, 2.0 etc.)*
- *Add space before or after paragraphs*

1.0

Microsoft Word is one of the most useful tools for creating professional documents. It helps students, teachers, and office workers type and format content easily. You can adjust the layout, spacing, and alignment to make your work look clean and organized. Learning how to format paragraphs properly will make your writing easier to read and more attractive. In this course, we will practice these basic formatting tools step by step.

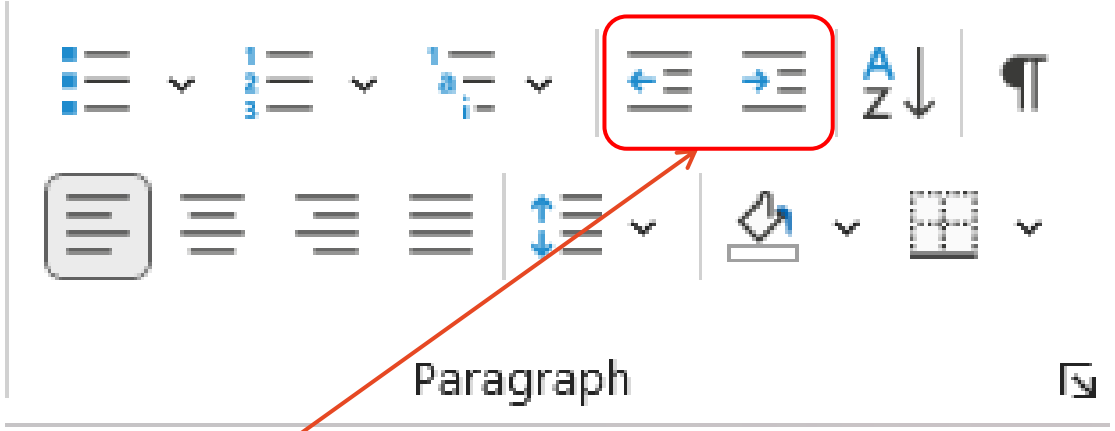
1.5

You can adjust the layout, spacing, and alignment to make your work look clean and organized. Learning how to format paragraphs properly will make your writing easier to read and more attractive. In this course, we will practice these basic formatting tools step by step.

2.0

Microsoft Word is one of the most useful tools for creating professional documents. It helps students, teachers, and office workers type and format content easily. You can adjust the layout, spacing, and alignment to make your work look clean and organized. Learning how to format paragraphs properly will make your writing easier to read and more attractive. In this course, we will practice these basic formatting tools step by step.

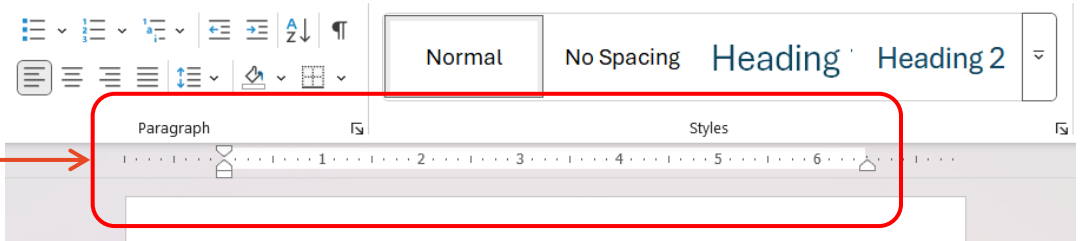
Indentation



Move the starting point of a paragraph inward

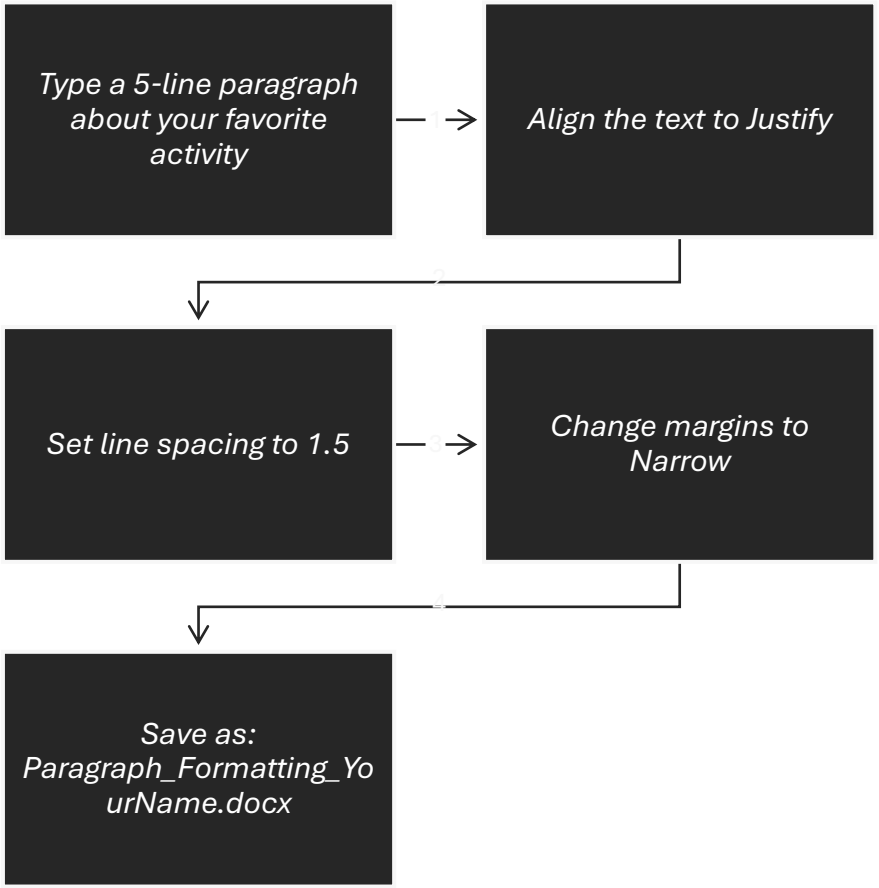
Use:

- *Increase Indent / Decrease Indent*
- *Or use ruler: drag the indent marker*



Practice – Format a Paragraph

My favorite activity is designing posters and flyers. I enjoy choosing the right colors and fonts to make things look creative. I often use Canva and sometimes try Adobe Express. It feels satisfying to turn a blank space into something beautiful. Designing also helps me relax and express my ideas visually. I get inspired by social media posts, YouTube thumbnails, and event posters. Every time I design something new, I try to improve my layout and alignment. I believe graphic design is not just a skill — it's a way to communicate without words.



Recap + Questions

📃 *What is page layout?*

🔤 *How to align paragraphs?*

↕️ *What is line spacing?*

🔍 *What does indenting do?*
