Session 9: Transitions, Animations, and Presenting Slides

Presented by

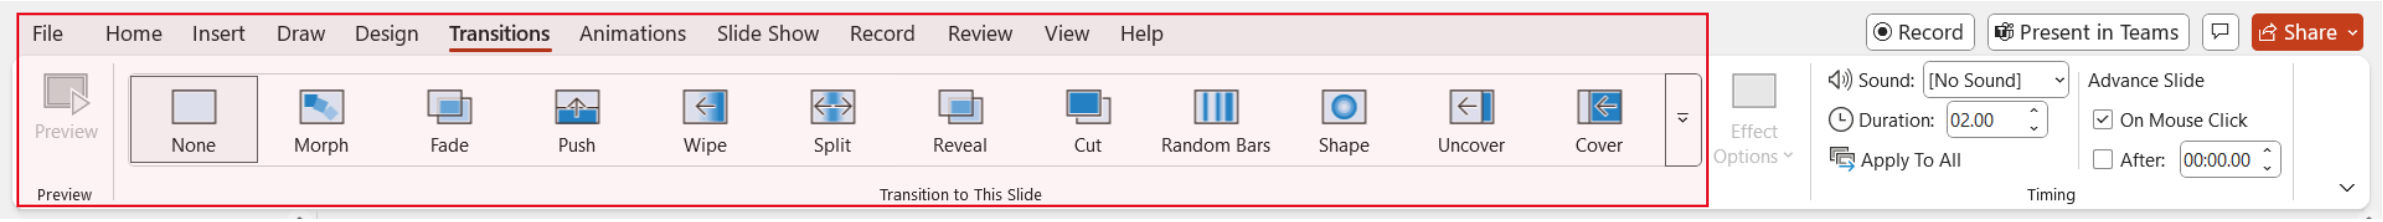
Ravindu Sooriyaarachchi

Today’s Goals

- ✓ *Apply transitions between slides*
- ✓ *Add animations to objects/text*
- ✓ *Manage animation timing and order*
- ✓ *Practice presenting using slideshow mode*

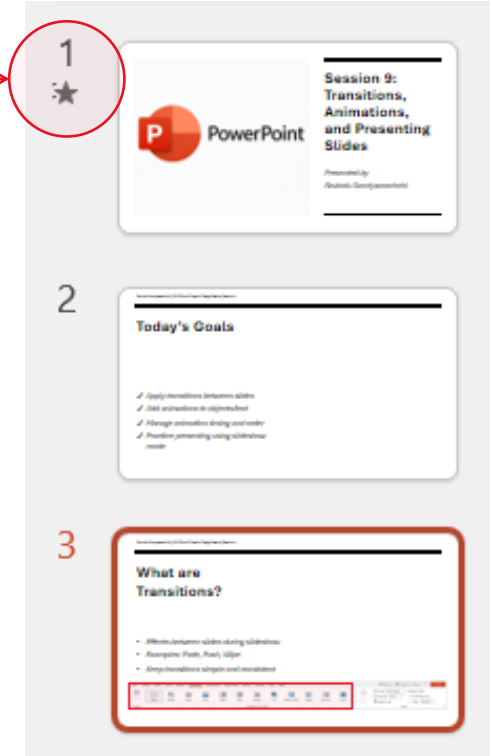
What are Transitions?

- *Effects between slides during slideshow*
- *Examples: Fade, Push, Wipe*
- *Keep transitions simple and consistent*

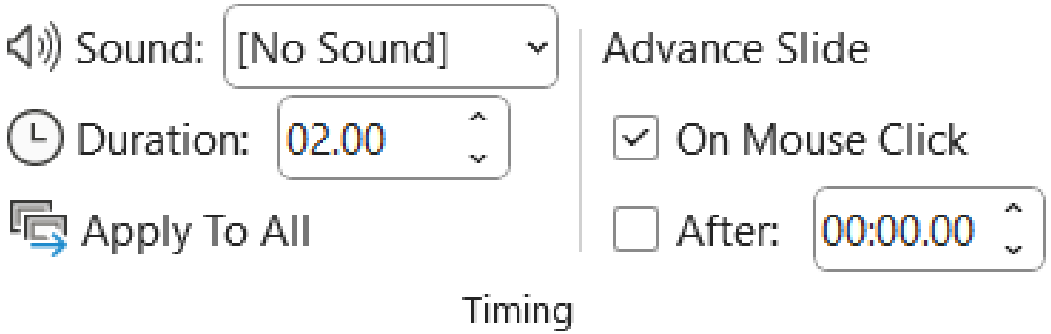


Applying Transitions

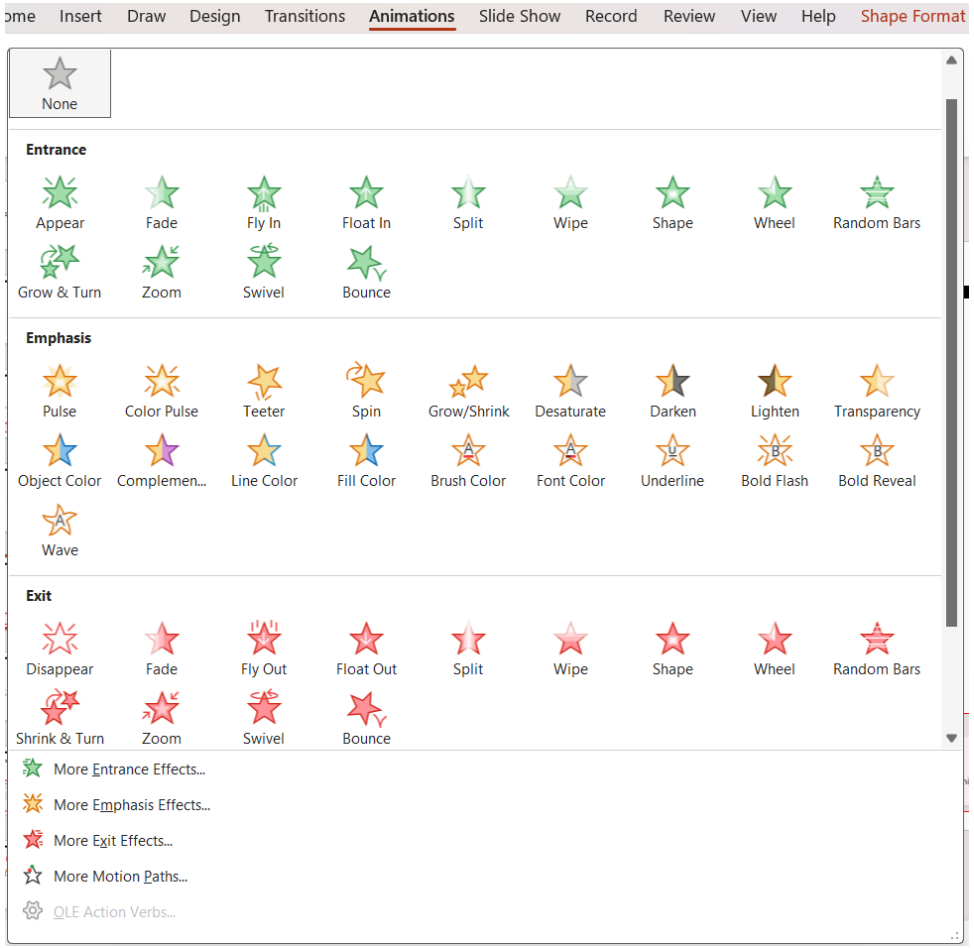
After applying transition



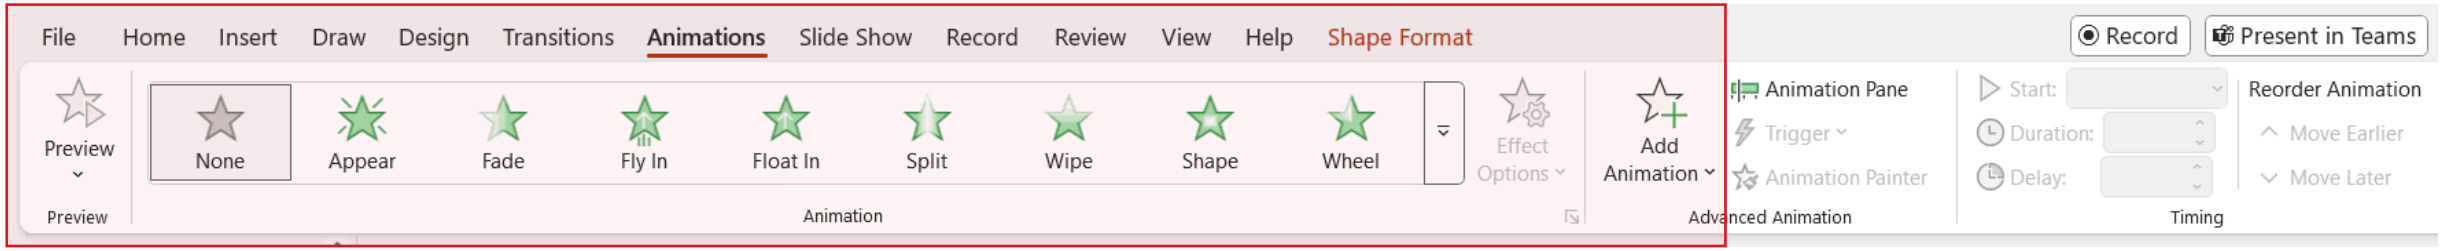
1. *Select a slide → Go to Transitions tab*
2. *Choose transition effect (e.g., Fade)*
3. *Adjust duration (1–2 sec)*
4. *"Apply to All" for consistency*



What are Animations?



- *Add movement to objects/text on slides*
- *Types: Entrance, Emphasis, Exit*
- *Use animations for emphasis*



Adding Animations

Entrance

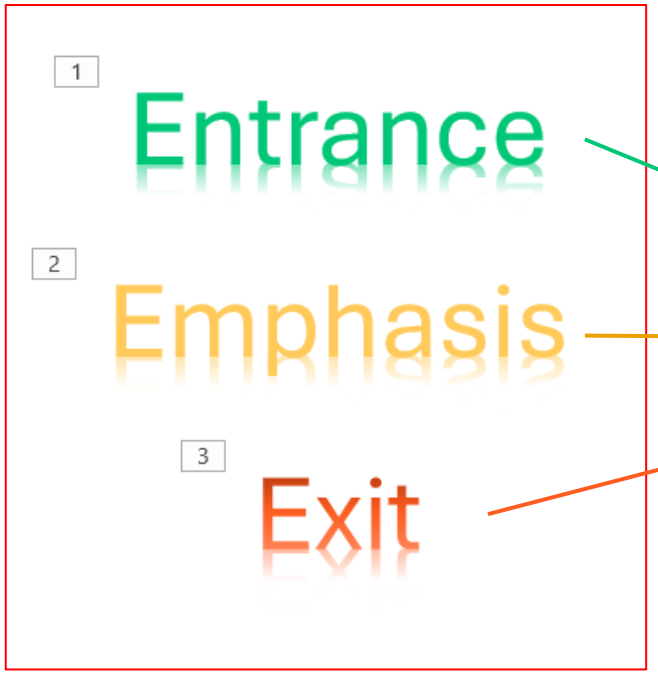
Emphasis

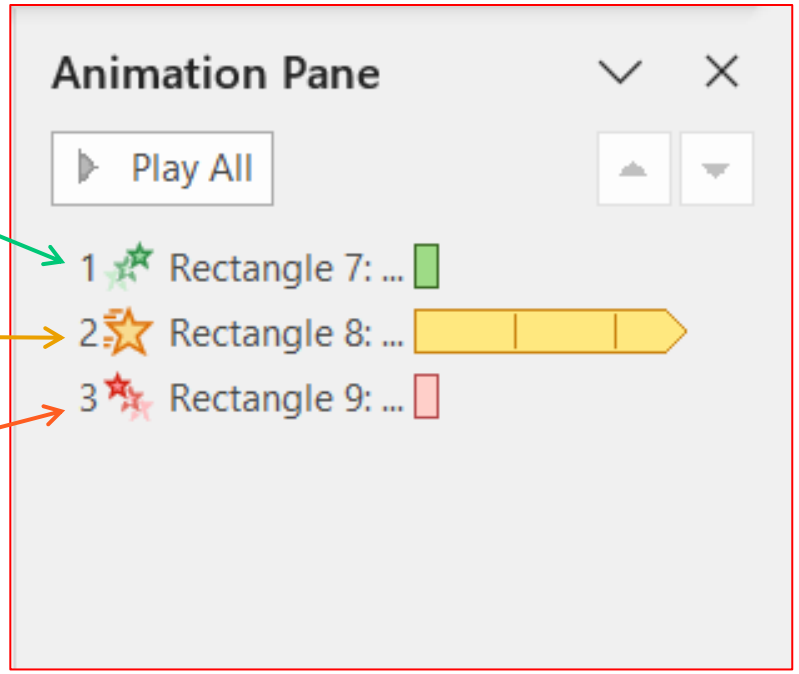
Exit

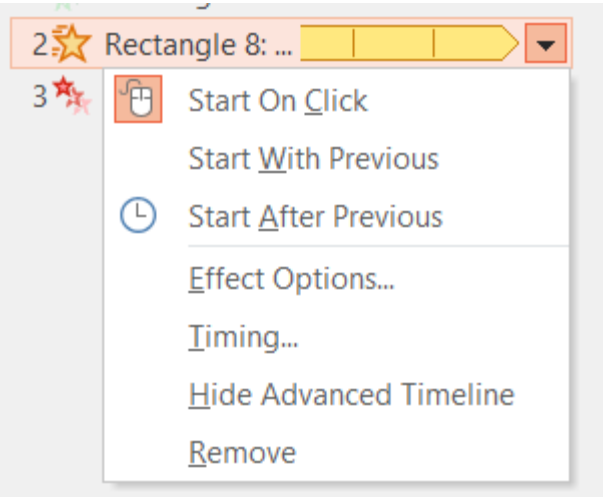
1. *Select object/text → Go to Animations*
2. *Choose entrance animation (Fly In, Fade)*
3. *View applied animations in Animation Pane*

Managing Animation Timing & Order

- *Open Animation Pane for control*
- *Adjust Start:*
  1. *On Click*
  2. *With Previous*
  3. *After Previous*







Save Time with Animation Painter

- If you create the perfect animation for one object, you can copy it to another!

1. Select the object that already has the animation.

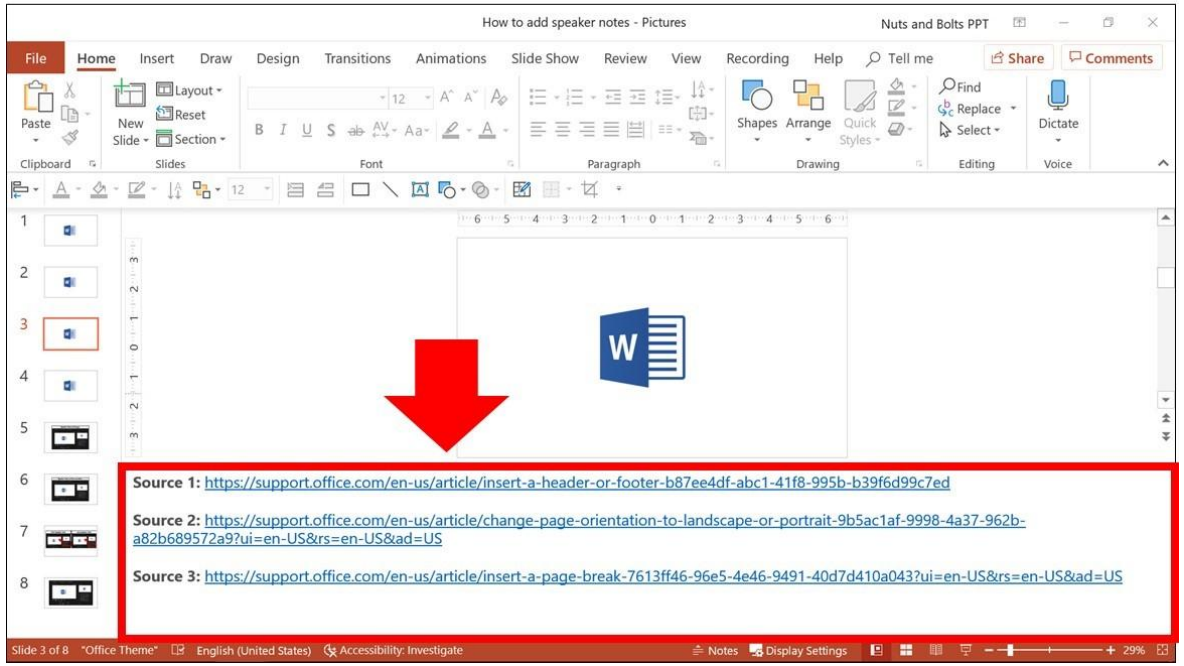
2. Go to the Animations tab and click **Animation Painter**.

3. Click the new object you want to animate.

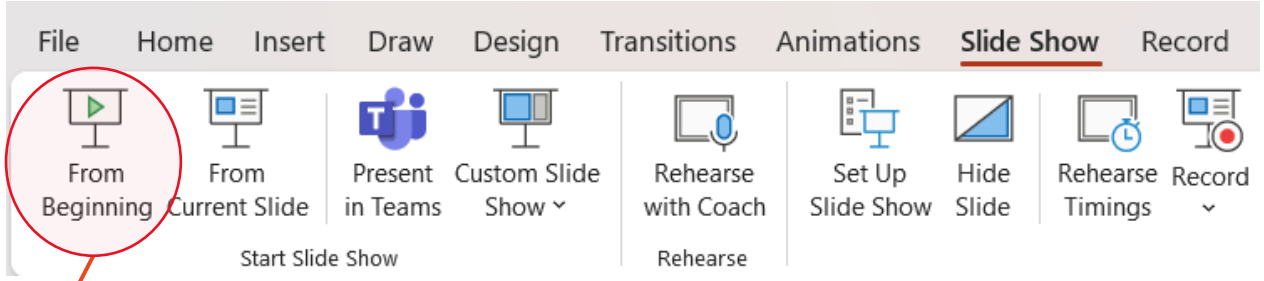
Adding Speaker Notes

- Never read directly from your slide! Use Speaker Notes instead.
- Click the "Notes" button at the very bottom of the PowerPoint window.
- Type your script or reminders in the text box that appears below your slide.
- These notes will only be visible to you when using Presenter View.

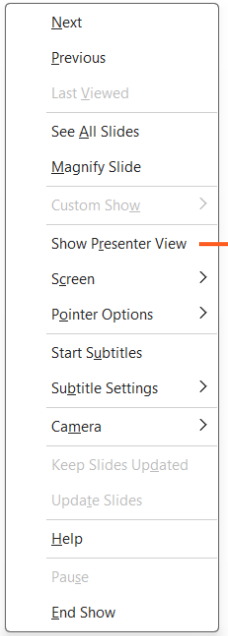
Speaker Notes – Reference Documentation

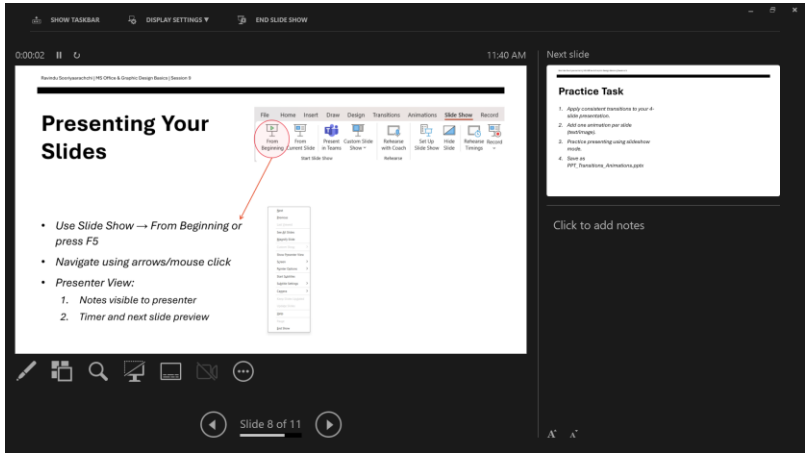


Presenting Your Slides



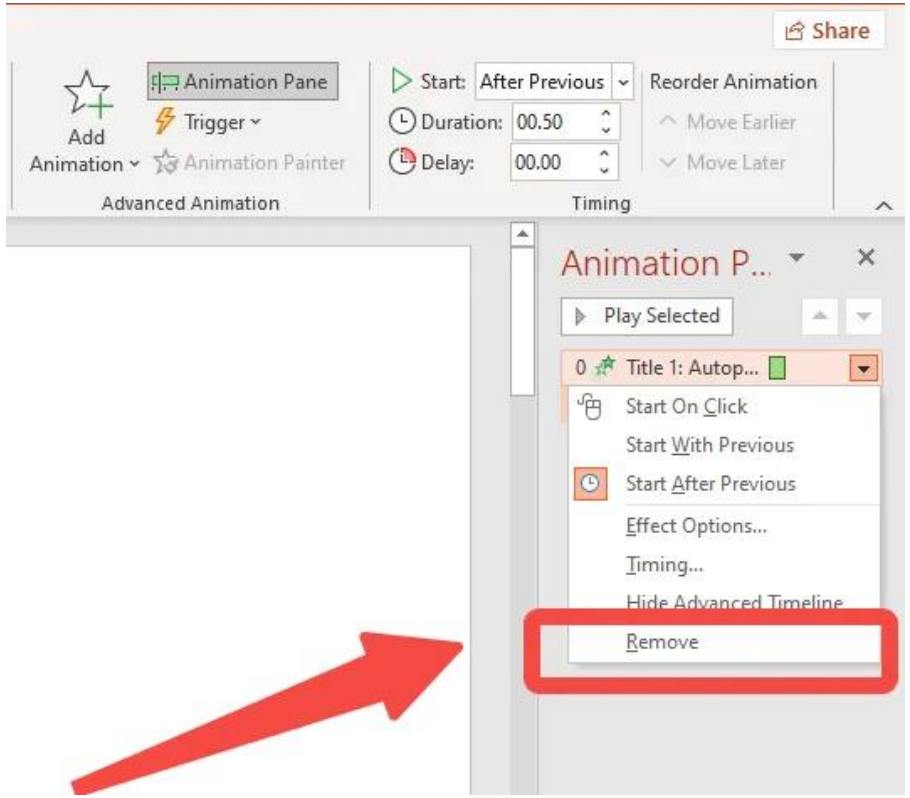
- *Use Slide Show → From Beginning or press F5*
- *Navigate using arrows/mouse click*
- *Presenter View:*
  1. *Notes visible to presenter*
  2. *Timer and next slide preview*





How to Remove Transitions & Animations

- **Remove a Transition:** Go to the Transitions tab and select **"None"** (the very first option on the left).
- **Remove an Animation:** Open the **Animation Pane**, right-click the animation you want to delete, and select **"Remove"**



Practice Task

1. *Apply consistent transitions to your 4-slide presentation.*
2. *Add one animation per slide (text/image).*
3. *Practice presenting using slideshow mode.*
4. *Save as PPT_Transitions_Animations.pptx*

Recap & Next Session

✅ *Today you learned:*

- *Adding transitions*
- *Applying animations*
- *Managing timing and order*
- *Practicing presentation skills*

✅ *Next session:*

- *PowerPoint Mini Project*
